

ACCELERATE

Education for all with
technology and information
2019–2022

Accelerate is a transformational strategy to improve educational outcomes through the use of technology and information. Rapid technological change is driving a worldwide shift in teaching and learning. Technological enablement and use of data to drive decision making is key to improving student outcomes for all young Territorians. Through Accelerate, we have the opportunity to ensure that the education services we deliver connect with students, schools and their communities in meaningful ways.

To accelerate the improvement of student outcomes using information and technology, we are focusing on:

- establishing and **building on foundations** already in place to enable access for all students and educators. This includes connectivity, digital literacy and access to appropriate technology devices
- **enabling transformation** in education services and delivery that embed the opportunities of the digital age for the benefit of all Territorians.

OUR PRINCIPLES

In delivering our strategy, we will uphold these principles:

- > Equity
- > Connectedness
- > Evidence-based
- > Collaborative
- > Future-focussed
- > Centred on safety
- > Efficient

WHO WILL BENEFIT FROM ACCELERATE?
