This document should be read in conjunction with [Excursions guidelines](#) and the [Official Travel policy, guidelines and procedures](#) (staff access only).

1. POLICY

This policy outlines responsibilities and procedures that must be adhered to when planning and undertaking school excursions. Excursions must have clear educational outcomes that take into account the learning programs and individual needs of students, as well as the educational programs and resources of the school. Activities must be inclusive, with all students appropriately supported to participate.

All excursion documentation must be submitted and approved in accordance with this policy and associated guidelines prior to any excursion taking place.

Excursions are categorised as follows:

**Category A**  
**Local area excursions and regular outings:** involve movement either on foot or requiring transport within the local community but not involving absence overnight. Category A excursions require principal approval or for teaching principals, Director/Manager Quality School Systems and Support (QSSS) approval.

**Category B**  
**Beyond local area excursions or overnight:** involve travel beyond the local community but within the Northern Territory (NT) and may involve overnight accommodation, e.g. school camps. Category B excursions require principal approval or for teaching principals, Director/Manager Quality School Systems and Support (QSSS) approval.

**Category C**  
**Interstate excursions:** involve travel interstate. Category C excursions require in-principle approval from the Senior Director School Improvement and Leadership, through the Director/Manager Quality School and System Support (QSSS) before planning commences, and final approval from the Chief Executive.

**Category D**  
**International excursions:** involve travel overseas and require in-principle approval from the Senior Director School Improvement and Leadership, through the Director/Manager QSSS, then endorsement from the Chief Executive and final approval from the Minister for Education. All requests for international excursions are to be justified in terms of need, educational
benefits and cost prior to seeking approval for travel from the Minister for Education.

**Important Note:**

Interstate and international excursions may not be considered for approval unless documentation is submitted within the timeframes as set out in the Excursion Guidelines.

The department does not accept responsibility for expenses incurred for excursions unless prior approval for the expenditure has been granted by the appropriate delegate.

Students should be notified when enrolling in a course of study where excursions are an integral part of the course. Alternative educational programs should be available to students unable to participate in an excursion.

2. **BUSINESS NEED**

Excursions and regular outings are a valuable teaching and learning experience providing an opportunity for students to learn from the wider community, building on and reinforcing the school curriculum. To ensure the safety and wellbeing of students and staff, educational excursions and/or regular outings should be conducted with consistent processes and awareness by all parties of their responsibilities. This policy and related guidelines seeks to clarify the obligations and procedural requirements for preschools and schools (including independent public schools), and particularly principals, teachers and parents.

3. **SCOPE**

This policy applies to all excursions arranged by NT Government schools (including preschools and independent public schools), departmental coordinated programs, e.g. Katherine Stronger Smarter Sisters program, and regular outings conducted by preschools in scope of the National Quality Framework.

This policy does not apply to:

(a) third party arranged excursions such as Clontarf and Role Models and Leaders Australia excursions – however:
   - principal approval must be sought in accordance with any third party organisation's procedures prior to students participating in such excursions
   - prior to approving any such excursion, principals must be satisfied that appropriate risk management strategies are in place to ensure student wellbeing
   - where students are participating in overseas travel as part of an overseas excursion, the Chief Executive must be notified.

(b) work experience

(c) vocational education placements
