

## **2020 VET DELIVERED TO SECONDARY STUDENTS**

### **INFORMATION FOR SCHOOLS AND RTOs**

#### **INFORMATION FOR SCHOOLS**

Each year schools apply to the Department of Education (DoE) to fund VET programs for their students to access. Registered Training Organisations (RTOs) are funded based on nominal hours and the industry rate that the Department of Trade, Business and Innovation specifies.

It is strongly advised that schools discuss their VET application with the RTOs that they wish to engage with, prior to submitting the form.

Schools need to submit their 2020 VET Application by Friday 21 June 2019.

Application forms will be on DoE's website as of 10 May 2019:  
<https://education.nt.gov.au/education/support-for-teachers/vet>

- 2020 VETDSS Course Application

All middle and senior schools are eligible to apply for VET.

If an RTO does not offer the required VET course as part of their funded allocation, schools can pay RTOs directly out of their global budgets. This is called a 'fee for service' delivery.

All RTOs providing a service in an urban or regional setting will be subject to cluster arrangements. This means that all eligible school students in that region will have access to the funded program. RTOs will advise on the enrolment process.

Middle school students who are progressing into senior school in 2020, should discuss their VET preferences with the VET Coordinator of the senior school that they will be attending.

#### **INFORMATION FOR REGISTERED TRAINING ORGANISATIONS**

RTOs are advised to market their courses to schools from May through to June and if possible, attend school information and subject selection nights.

DoE's Industry Training Programs work unit sends out the VET Course Application forms to all middle and senior schools in May. The schools submit their application to DoE, which details the VET courses they prefer and the RTO provider.

If an RTO is funded DoE, a notification email is sent to the RTO advising them of the funding offer. If the RTO accepts the offer, a resource agreement is sent out for signing.

Please see [Business Rules](#) document as to how funds are allocated.
